THE FUTURE OF WELLNESS STARTS HERE.

Guest expectations are changing. Today's spa guests are looking beyond traditional treatments. They seek personalised wellness experiences that support relaxation, recovery and long-term wellbeing. At the same time, premium spas are looking for new ways to differentiate their offering, improve operational efficiency and unlock more value from every wellness space.

DEEP2ENSE

The future of wellness is no longer about adding treatments.
It's about creating value throughout the entire guest journey.

DEEPSENSE

BY BELLEZI x NEUROSÖNIC TECHNOLOGIES

BEFORE THE TREATMENT

Prepare guests for a deeper treatment experience.

DURING THE TREATMENT

Enhance treatments through carefully tuned low-frequency vibrations that work through the body.

AFTER THE TREATMENT

Extend relaxation and support recovery beyond the treatment itself.

IN THE RELAXATION LOUNGE

Transform waiting or relaxation areas into valuable wellness experiences.

- Safe and suitable for every guest

WHAT COULD A DEEPSENSE BED GENERATE?

DEEPEENSE

HOW DEEPEENSE WORKS.

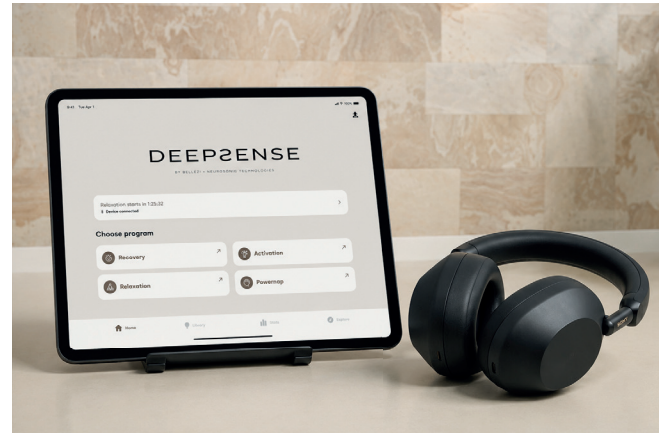

Unlike traditional relaxation methods, Deepense by Bellezi works through the body rather than the mind.

Carefully tuned low-frequency vibrations (20-100 Hz) stimulate connective tissue and nerve endings, sending signals directly to the nervous system.

Deepense offers programmes with different session lengths, allowing operators to tailor the experience. Programmes for relaxation, recovery and activation are available in multiple session lengths.

POTENTIAL BENEFITS.

- Deep relaxation
- Improved recovery
- Better sleep quality
- Enhanced focus and alertness
